

DM-1620 in White

DM-1620 in Black

The DM antennas provide a low profile style antenna that can be mounted to any vehicle, container or bulkhead. The rugged style is excellent for industrial applications, yet attractive for consumer use.

Models are available with a stud mount, allowing easy thru-hole mounting to a surface. The DM-1620 operates on the 1616-1626.5 MHz Iridium band. These use a 5/8" (16mm) feed thru for securing to the vehicle. The antennas are outfitted standard with 10 feet (3 meters) of low loss-195 cable, and terminate with an SMA Plug (Male).

The antenna gain is 3.5 dBi with no ground plane required. The antennas can even be mounted on fiberglass or plastic housing.

The antenna radome is available in white or black ASA. The bottom mounting plate is outfitted with a sealing gasket for a watertight seal.

The DM-1620 is the perfect match for surface mounted appli-

## Surface Mount Iridium Communications®

- Available for 1616-1626.5 MHz (Iridium)
- Ground plane reccomended for optimal performance
- Rugged and attractive low profile ASA radome

cations requiring Iridium communications. In particular the relatively low profile design is ideal for a mobile setting, such as being surface mounted on top of a truck.

The antenna is designed with RHCP, otherwise known as Right Hand Circular Polarization. This polarization is ideal for any antenna intended for Iridium communications.

Model #	Description	
DM-1620-3C-WHT-120	Iridium Surface Mount Antenna	
<u>Cable</u>		
Low Loss-195, 10 ft (3m)		
Iridium (1616-1626.5 MHz)		
Color options available for above models		
WHT-White or BLK-Black		

Specifications					
Frequency:	1616-1626.5 MHz				
Gain:	3.5 dBi peak	Connector:	SMA Plug		
VSWR:	<2:1 max over range				
Operating Temp:	-40° to +85° C	Mounting:	3/4″ L stud (19 mm)		
Nominal Impedance:	50 ohms		5/8" diameter (16 mm) feed thru		
Maximum Power:	10 watts		for 7/32" thick surface (5.3mm)		
Case Material:	White or black UV Resistant ASA plastic	Jumper/Cable Option:	Use jumpers for longer length install or order with custom		
Radome:	3″ diameter x 1 1/2″ high (76 mm x 38 mm)	Shock & Vibration:	EN 61373, IEEE 1478, MIL-810G TIA-329.2-C		
Hardware Supplied:	Nut, lockwasher, gasket	Water Ingress:	IP67		
Cable:	LL-195, 10 ft (3 meters)
