The OD Series Antennas for 1.8/1.9 GHz are optimized for use in a wide variety of wireless systems. Typical uses include MicroCell, data links, and surveillance transmitters.

## **Omni-Directional Antennas** 1.8/1.9 GHz

- 6 dBi & 9 dBi antennas provide uniform omni coverage
- 6 & 9 dBi antenna for 1.8 band surveillance
- Mounting kit includes all hardware needed
- Reflector kit allows the radiation pattern to be reshaped into a directional cardiod pattern

the modem. The antennas is supplied with all the hardware needed to install it to a mast.

inks, and surveillance transmitters.
